# Aquafix Laboratories

Microanalysis & Filament Origins Testing

Let Aquafix's skilled Microbiologists help you troubleshoot upsets, or spot potential upsets before they happen. Top of the line equipment and staining techniques allow you to see your wastewater biology more closely than ever before.

Reports include images, an explanation of what is there, what it means, and a recommendations section for overcoming challenges. The report is always followed by a phone call with a Technical Rep to discuss the results and answer questions.
