

ReBuild

Bacterial Augmentation For Upset Recovery

READY. SET. REBUILD. ReBuild is a blend of bacteria and biostimulants designed to help with plant startups and recovery from upsets. This formulation rapidly builds healthy biomass. Use Rebuild in any activated sludge process.

- **Fast Recovery After Upsets:** Restores wastewater treatment plants after operational upsets, including influent toxicity or system washouts.
- **Ideal for New Plan Start-Ups:** Minimize the need for seed sludge.
- **Floc-Forming Bacteria:** Contains bacteria specifically selected for their ability to flocculate quickly.
- **Addresses Common Upset Symptoms:** Effective for treating ammonia spikes, cloudy effluent, MLSS color changes, poor settling, and disappearing mixed liquor.

Recovering After Upset

Flow Rate	Initial Dose <i>First 10 days</i>	Additional Dose <i>Following 20 days</i>
100,000 GPD	1-2 lb per day	0.5-1 lb per day
500,000 GPD	5-10 lb per day	2.5-5 lb per day
1 MGD	10-20 lb per day	5-10 lb per day

AVAILABLE SIZES:

- 30 lb Container (½ lb packets)
- 30 lb Container (1 lb packets)

INSTRUCTIONS:

- Add daily to aeration basin

FOR BEST RESULTS:

- Pair with SmartBOD for fastest MLSS regrowth
- Pair with CounterQuat™ to combat toxic influent
