

DAZZeL Sewer Sweetener

Wastewater Odor Neutralizer

DAZZeL Sewer Sweetener reacts with common wastewater odors and breaks them down in a quick and efficient manner fundamental way. This product is composed of essential oils (plant extracts) that binds with volatile malodorous compounds and breaks them down in an irreversible reaction. Use it in collection and activated sludge systems.

- **Targeted Application:** : DAZZeL Sewer Sweetener tackles tough odors making it perfect for collection systems, influent wells, sludge holding tanks, small lagoons.
- **Effective Against Strong Odors:** DAZZeL Sewer Sweetener neutralizes common wastewater odors at a molecular level targeting odors caused by sulfides, mercaptans, ammonia, septic, and volatile fatty acids.
- **Natural Ingredients:** Utilizes plant extracts that bind with malodorous compounds and break them down.
- **Non-Masking Odor Control:** Does not mask odors but rather eliminates them, forming a molecular barrier at the water's surface for immediate odor reduction.

Dairy Processing Wastewater Odor Control

Flow Rate	Initial Dose <i>Once per day for 10 days</i>	Maintenance Dose <i>Once per day after 10 days</i>
100,000 GPD	0.5 gal	1 qt
500,000 GPD	2 gal	1 gal
1 MGD	4 gal	2 gal

INSTRUCTIONS:

- Can be added manually, sprayed or metered.
- Use in locations where odors are present or upstream

FOR BEST RESULTS:

- Pair with OxyFresh to stop low DO odors at the source.
- Pair with De-Sulph-A-Nator to stop H₂S formation while combatting odors.

AVAILABLE SIZES:

- 5 gal Case
- 55 gal Drum
- 275 gal Tote
