

# Duckweed Complete

## Premier Duckweed and Filamentous Algae Control

Duckweed Complete combines PondZilla Pro and Flumigard® for the most effective treatment of herbicide-resistant duckweed, aquatic weeds, watermeal, and filamentous algae. This breakthrough solution penetrates duckweed's waxy cuticle and accelerates the breakdown of dead plant material, preventing excess sludge buildup.

- **Highly Effective Duckweed Treatment:** Flumigard® is the most effective herbicide for treating duckweed, outperforming standard herbicides.
- **Biocatalyst Action:** PondZilla aids in penetrating duckweed's waxy cuticle, enhancing the effectiveness of Flumigard®.
- **Breakthrough Chemistry:** Flumigard® is registered with the USEPA and represents a significant advancement in duckweed control.
- **Prevents Sludge Build-Up:** PondZilla accelerates the degradation of dead plant material, preventing it from contributing to excess sludge accumulation.

### Surface Application

Surface Acre	Dose Rate
1/4 Acre (Spot Treatments)	4 oz Flumigard® + 1 qt PondZilla Pro
1 Acre	1 lb Flumigard® + 1 gal PondZilla Pro
4 Acres	4 lb Flumigard® + 4 gal PondZilla Pro

### AVAILABLE SIZES:

- 5 lb Flumigard & 5 gal PondZilla Pro

### INSTRUCTIONS:

- Flumigard® is a contact herbicide. It must be applied to vegetation immediately after mixing.
- Apply according to label instructions, wear proper PPE

### FOR BEST RESULTS:

- Treating early in the morning will provide the best results
- For floating weeds treatment can take 1-3 applications depending on the coverage of your spray during applications
- Flumigard® is a trademark of Alligare
